# Exterior Design

Behold its beautiful, sensuous form. Feel its spirited driving performance and exceptional ride comfort. Take command of the ultimate sedan—your best ever Camry experience is about to begin.

## Headlamp

In addition to providing good visibility, the bright LED headlamps have an instantly-recognizable distinctive design that accentuates the vehicle's individuality at night.

\*2.5L Model only

## Rear Combination Lamp

Tail lamps with a special luminescence appeal a sense of innovation to following vehicles.

\*2.5L Model only

## Moon roof

The wide opening size provides a comfortable cabin space with a sense of openness.

\*2.5L Model only

# Interior Design

Open and inviting, the stylish layout, intuitive interface, excellent forward visibility and optimal positioning of controls in the cockpit create a feeling of instinctive response and confident control, enlivening the senses and the exhilarating pleasure of sporty driving.

Sit back and relax in the light-filled, spacious comfort of the cabin. The refined quality and comfort are evident in the superb functionality, exceptional quietness, and bold and delicate contrast in textures and finishes.

## Head-Up Display (HUD)

A color head-up display is available on the lower part of the windshield glass, allowing necessary information to be checked with minimal driver eye movement.

\*2.5L Model only

## Meters

High-grade models feature a two-meter Optitron design that offers excellent visibility and readability along with a streamlined appearance.

## Audio / Navigation System

An 8-inch touch-panel display provides easy control of the 9-speaker JBL audio system with numerous high sound quality technology items and integrated DVD player. The navigation system searches and provides optimal route guidance.

\*2.5L Model only

## Triple Zone Independent Temperature Control

Triple zone independent temperature control is available to provide independent air conditioning for each passenger in the driver's seat, front passenger's seat, and rear passengers' seats in accordance with their desires.

\*2.5L Model only

## Luggage Room

The 40/20/40 split and power reclining rear seats feature a trunk-through function, enabling longer items to be stored in the luggage room.

\*2.5L Model only

# Performance

## Toyota New Global Architecture

The new TNGA platform contributes to the stability, agility and safety of Toyota vehicles. Experience the enhanced technology that leads to better driving performance.

### STABILITY

The low, center-of-gravity package with strengthened ring structures around the door openings and behind the back seats contribute to excellent handling stability.

### AGILITY

The front MacPherson strut and rear double wishbone suspension provides stable cornering for enjoyable driving, together with a comfortable and outstanding ride.

### VISIBILITY

Camry features a reduced cowl height and thinner front pillars as well as taller windows for better visibility.

## Suspension

The front MacPherson strut and rear double wishbone suspension contributes to flat, stable ride comfort with minimal shock and vibration, providing stable cornering for enjoyable driving, together with a comfortable and outstanding ride, even on long drives.

## Integrated Sport Driving

In addition to the low fuel consumption of ECO mode, the newly adopted SPORT mode enables the driver to enjoy sporty driving.

\*2.5L Model only

## Paddle Shifters

Integrated into the steering wheel, they enable intuitive manual up- and down-shifting while keeping your hands on the steering wheel.

\*2.5L Model only

# Safety

## ASEAN NCAP

As a global car model with a 5-star ASEAN NCAP rating, Camry provides an outstanding level of safety. Features designed for functionality and safety include 7 SRS airbags, 3-point seatbelts for all passengers, Hill-start Assist Control (HAC), LED headlamps, and many more. These features help provide driving confidence under various conditions.

## Crash Safety Body

Comprised of energy-absorbing zones on the front, rear and both sides that help absorb impact energy in a collision and a high integrity cabin. It also incorporates a body structure to help reduce injury to pedestrians.

## Vehicle Stability Control

VSC automatically limits drive train output and applies selective braking to individual wheels in order to maintain stability when cornering.

## Blind Spot Monitor System (BSM)

When vehicles in adjacent lanes that are not visible in the door mirrors are detected, an LED indicator lights up in the relevant door mirror and starts flashing when the driver activates the side turn signal.

\*2.5L Model only

## Rear Cross Traffic Alert (RCTA)

When backing up, the RCTA function uses quasi-millimeter wave radar to detect vehicles approaching difficult-to-see areas behind your vehicle.

\*2.5L Model only

## Brake Hold Function

Vehicles equipped with Electric Parking Brake (EPB) also feature a brake hold function.

## Back Monitor

Supports smooth reversing operations when perpendicular or parallel parking.
